The Inrico TM-8, is the evolution of the TM-7 best seller network radio.

Great for amateur radio use with the new [IRN](#) platform, for Zello, Team Speak 3 and Echolink via 3G or WiFi. And it works as WiFi hotspot too!

Is this still hamradio? Read this [article](#). The TM7 can also be used to listen to the police, fire department and many other transmissions. [Learn how](#).

It is also fully compatible with APRS. Learn more on [setting up APRS](#) on the Inrico TM-8.

The Inrico TM-8 is a network radio. It does not have a VHF or UHF RF module.

[Learn 5 Things you can do with an Inrico TM Series Transceiver](#)

This network radio version is fully compatible with the [International Radio Network \(IRN\)](#)

To transmit on the Ham repeaters, you need to hold a valid hamradio license. In order to use this radio on IRN, you need to follow [these steps](#) and, after that, configure the audio settings. Under the RECORD tab, select "Mic" and you are all set.

You can program the key buttons to any function you like, by following a simple [procedure](#). Also, read this [article](#), if you want to use a different microphone.
